

STUDENTS' VOICES OF AIMS-IU PROGRAM AT IBARAKI UNIVERSITY, JAPAN 2015

 **Ms. Wismayanti Ginasari** ✈️
from Gadjah Mada University, Indonesia

There is no regret at all to join this AIMS-IU program. I got so many valuable experiences, new knowledge on sustainable agriculture, awesome new friends, and unforgettable memories. I improved my way of thinking, soft skills, life skills, and I was able to become much more confident in myself. Thank you everyone! I love Japan!

 **Mr. Bagus Iswahyudi** ✈️
from Sriwijaya University, Indonesia

Before this AIMS-IU program, I had rarely use English because my mother tongue is Bahasa Indonesia. I used watch and read English entertainment, but I was very shy when I use English. However, throughout this program, I was forced to speak and write in English. I had to do it, and as a result, I gained more confidence talking in other language. I could also learn basic Japanese language through this program.

Ms. Brigitta Lydia ✈️
from Bogor Agricultural University, Indonesia

Knowledges, experiences, and friendships are the part of what I have gained through AIMS-IU programme. I have developed myself through this program. It was such a great chance for me. And I enjoyed very much!

Mr. Dwiananda Yari ✈️
from Sriwijaya University, Indonesia

It was a great chance for me to study at Ibaraki University. I had a precious time and experiences as an AIMS-IU student. I have tried to give my best effort to get all benefits from studying here during four months. In the future, I hope we can apply what we learned through this program to our better future, and do hope we can collaborate more and more each other.

Ms. Sasiprapa Keeranon ✈️
from Kasetsart University, Thailand

Within 4 months I learned so many things from this program both inside and outside class. This program did not teach me only scientific knowledge but also teach me about soft skills. I learned to be open-mind, adaptable and understanding person. This is the important thing for working with other people. From my experience through AIMS-IU program, I gained friendship with people from different countries and learned more about various cultures.

Mr. Frans Hotman Richardo ✈️
from Bogor Agricultural University, Indonesia

Through this AIMS-IU program, I got not only new experiences, new culture, and self-growth, but also new friends from the dormitory, my classes, the laboratories, and the gymnasium too! The time I spent in Japan, with my best friends, was priceless!

Ms. Nicha Chaisomthip ✈️
from Kasetsart University, Thailand

Actually, all of four months that I stay in Japan was my best memory. However, in the first day in Japan, I had a lot of feeling in the same time such as excited, nervous, scared, happy and lonely. All of these feelings were good and bad for me, and I still clearly remember that time. Now I never regret that I joined AIMS-IU program, I am really thankful for everything for this opportunity.
